

FISCAL NOTE

HB 2462 - SB 2911

February 5, 1998

SUMMARY OF BILL: Directs the Department of Environment and Conservation to conduct a stream mapping project on a regular, quarterly basis in the Red River watershed of Sumner County. Samples collected shall be analyzed for PH, ammonia, and BOD (Biological Oxygen Demand) in accordance with the guidelines set forth by the United States Environmental Protection Agency.

ESTIMATED FISCAL IMPACT:

Increase State Expenditures - \$18,600 - Recurring

The Department of Environment and Conservation states there are 71.69 miles of streams in the Red River watershed in Sumner County. Using 3-mile increments, a minimum of 24 sampling stations would be required. Samples would be taken quarterly at a cost of \$194 per station.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
